

HSE Law Poster Details

The Health and Safety Law Poster contains two sections that need to be completed.
These are

Your representatives:

Employee Representative(s)

A representative that has been appointed/elected by the employees, either under the Safety Representatives and Safety Committee regulations 1977 (if the work place has a trade union) or the Consultation with Employee Regulations 1996 (if there is no union represented). If there is no one who has been appointed/elected by the employees and the employer consults directly with the employees, then this can be left blank.

Management Representative

This is for the person(s) appointed by the employer for health and safety, (i.e. health and safety officer). The Management of Health and Safety at Work Regulations 1999, regulation 7 states that "Every employer shall, appoint one of more competent persons to assist him in undertaking the measures he need to take to comply with the requirements imposed upon him by the regulations". Ultimately this could be the employer themselves, depending on the size and structure of the business, and if the employer has the relevant training and experience. In the case of community and voluntary controlled schools and others buying in to our SLA this would be:
